

# VISION 2050

A Flight Plan for San Antonio's Future

## A FLIGHT PLAN for San Antonio's future.

San Antonio International Airport is the front door to our city – a key link between our region and the rest of the world. Whether we use it or not, the airport impacts all of us.

For the past six months, nearly 100 San Antonians from all walks of life have met to develop a plan for the airport 20 years and beyond. The Vision 2050 Airport Master Plan is a community-driven effort to look at how the airport can best serve as an engine for economic growth, enhance our trade relationships, integrate multimodal transportation and help showcase the region's natural, historical and cultural resources.

On Thursday, May 27, 2010, the City of San Antonio will hold the first public meeting of the Vision 2050 Airport Master Plan. Please join us to help shape the vision for San Antonio International Airport.
